## ABOUT ME

I'm Karthik Gourav, an aspiring full-stack developer with a strong interest in building real-world applications and continuously learning new technologies. I recently developed and deployed a note-making web app using React.js for the frontend and Flask/Python for the backend, which introduced me to the full development cycle — from UI design to API development and deployment using platforms like Vercel and Render.

While I'm still early in my journey, I'm driven by curiosity and a genuine passion for solving problems through code. I enjoy learning by building, experimenting, and collaborating. My long-term goal is to transition into the field of machine learning, combining full-stack experience with data-driven intelligence to build smart, impactful solutions.

I'm currently focused on improving my development skills and working toward internship opportunities where I can grow through hands-on experience and mentorship.

## EDUCATION

### ANDHRA UNIVERSITY COLLEGE OF ENGINEERING

2023-2027

- Btech In Computer Science And Engineering - CGPA(3rd Sem): 8.9

### TIRUMALA JUNIOR COLLEGE

2021 - 2023

- Intermediate MPC- Percentage: 98.4%

## SKILL

- Programming Languages:** Java, Python, Javascript
- Frontend:** HTML, CSS, React, Tailwind Css
- Backend:** Flask
- Database and Tools:** SQLite, MySQL, Supabase, JWT, Figma
- SoftSkills:** Communication, Creativity, Critical Thinking, Teamwork

## PROJECTS

### Jotly

- 05/2025
- It's my first full stack project, A project for writing notes, with login features.
- I experienced a lot of things while building this one, got to learn many things.

## INTERESTS

- Painting
- Dancing
- Cricket
